TRINITY COUNTY RESOURCE CONSERVATION DISTRICT

REGULAR BOARD MEETING**May 27, 2025, 2025, 4:00 PM****Board Members Present:** Kent Collard, Mary Ellen Grigsby, John Ritz, Josh Brown, Ren Winter**Board Members Absent:** None**District Staff:** Kelly Sheen, Kayla Meyer, Joan Caldwell, Marla Walters, Cynthia Tarwater**Other Agency Staff:** None**Guests:** None

1.0 Call to Order: The meeting was called to order at 4:00 PM by Chairman Collard.

2.0 Discuss/Take Action on Approval of Agenda

It was decided to move Item 7.0 ahead of the financial reports. With that change:

MSC/Brown/Winter to approve the agenda. The motion passed unanimously.

3.0 Discuss and Approve Meeting Minutes

3.1 Discuss and Approve Minutes of April 22, 2025 Regular Meeting

MSC/Grigsby/Ritz to approve minutes.

The motion passed unanimously.

7.0 Presentation: Roads Report

C. Tarwater, Roads Department Program Manager, gave an informative presentation regarding the Roads Department from her location near Ruth Lake. A question-and-answer period followed.

4.0 Financial Reports

4.1 Discuss Updated April Monthly Financial Report

J. Caldwell discussed the updated April Monthly Financial Report. She noted that the large CAL FIRE grants had been closed and final payments received.

TRINITY COUNTY RESOURCE CONSERVATION DISTRICT

4.2 Discuss May Monthly Financial Report

Discussion was held regarding the May Financial Report. Caldwell noted that the interest rate for the money market account has gone down to 2%, so she will be looking at alternatives. Discussion was held regarding target balances, contracting, and our reserves.

4.3 Discuss/Approve List of Warrants for May 2025

MSC/Grigsby/Ritz to approve the May 2025 warrants in the amount of \$552,713.72.

The motion passed unanimously.

5.0 Projects Report

The Projects Report was reviewed and discussed. K. Sheen described the myriad of issues with the Hobel Dump project and the County's tub grinder.

6.0 NRCS Report

No report.

8.0 Trinity Collaborative Report

K. Sheen reported:

- The Rec Committee had met, as had the Full Collaborative.
- The Collaborative standing meeting date has been changed, at the request of Supervisor Cox.
- The Collaborative's new "white paper," known as the Collaborative Strategy for Federal Land Management in Trinity County, went to the Board of Supervisors with a Resolution.
- A field tour is set for June 20 in the Weaverville fuel break. D. Kirkley and E. Bruce of the TCRCD will lead the tour.

9.0 Board Reports/Correspondence

M. Grigsby attended the Rec Committee meeting and had chipping done, which she greatly appreciated.

R. Winter attended the Collaborative meeting and worked on the previously mentioned "white paper."

TRINITY COUNTY RESOURCE CONSERVATION DISTRICT

10.0 Deputy Director's Report

K. Meyer reported:

She and D. McIntosh are working on preparing for Weaverville Summer Day Camp. Counselor training is upcoming. The Trinity County Office of Education is assisting with funding and other support.

The last Science on Tap hosted by TCRCD will be on May 29th.

She is looking at the District's evaluation process and will be looking at different systems.

The Farmer's Market started up again last week.

11.0 Executive Director's Report

K. Sheen reported:

The Grizzly Corps funding issue was taken up by UC Berkley, who has arranged for Fellows to fulfill their terms, until the end of July.

We will be conducting a RFP for a new auditor.

The Grass Valley Creek (GVC) tour will take place on May 31. We will co-host with the TRRP. The meetup will be at 9 AM at the Douglas City rest area.

12.0 Closed Session: Government Code §54957(b)

No closed session.

13.0 Adjournment

The meeting was adjourned at 5:53 PM.

Approved and adopted this 24th day of June 2025. I, the undersigned, hereby certify that the Minutes of the Meeting of May 27, 2025, were duly adopted by the following vote of the Board of Directors.

(Secretary Signature)

Report Total 420,457.79

Background

Per California Government Code §53065.50, Each Special District, as defined by subdivision (a) of Section 56036, shall, at least annually, disclose any reimbursement paid by the district within the immediately preceding fiscal year of at least one hundred dollars (\$100) for each individual charge for services or product received. "Individual charge" includes, but is not limited to, one meal, one-day lodging, transportation, or a registration fee paid to any district governing body employee or member. The disclosure requirement shall be fulfilled by including the reimbursement information in a document published or printed at least annually by a date determined by that district and shall be made available for public inspection.

Discussion

Employees who received reimbursement from the District in the month ending May 31, 2025 are highlighted above.

TRINITY COUNTY RESOURCE CONSERVATION DISTRICT

5.0

PROJECTS REPORT – June 24, 2025

5.1 Weaverville Community Forest –Shay Callahan, Adriana Rodriguez

The WCF tabled at the Plant and Seed Exchange hosted at the Young Family Ranch where they gave away free seeds, stickers, and information about the wildflower scavenger hunt. GrizzlyCorps Fellow Clay Groetsch and PM Adriana Rodriguez have begun planning for various community events and the annual field trip series, which have been formally named Careers in the Canopy (High School) and Woodland Wonders (Elementary). These events will occur in May. Planning also began for an oak woodland restoration collaboration with the Botany Program near the West Weaver Trail.

5.2 Watershed Coordination – Annyssa Interrante

Annyssa and Cindy Buxton of the WRTC hosted a collaborative Watershed Seasonal Staff training on May 22nd to ensure the continuity of watershed survey methodologies, training resources, and safety awareness.

The training was provided for 5 total technicians and covered topics of our organizational roles within the natural resource management of Trinity County, available safety resources, driving safety, environmental hazards, collecting information on noxious weeds and other species of interest, and stream discharge measurements introduction with hands-on instruction in the stream. The training was well received, informative, and a successful collaborative step in cohesive watershed monitoring between organizations.

Figure 1: Watershed Seasonal Staff; (left to right) Alison Colfield-WRTC, Agnes Koury- RCD, Farrah Tyler – WRTC, Jacob Hoadley – WRTC) learning stream discharge protocol with Cindy Buxton of WRTC.

On May 29th, the training was continued and focused on culvert, road, and fish passage barrier surveys. Oliver Rogers of the Trinity River Restoration Program attended to provide instruction, methodology, and hands-on instruction in the field for surveying culverts and analyzing road conditions and erosion hazards.

On June 10th-11th Region 6 Forest Service Aquatics Program hosted a two-day virtual training covering Stream Inventory protocols and Snorkel Survey safety for all aquatics technicians. This was a very

valuable opportunity for all of our Watershed Seasonal Staff, given the current reductions in Aquatics staff on the Shasta Trinity National Forest and obtaining technical assistance for upcoming surveys and assessments.

Figure 2: Watershed Seasonal Staff; (left to right) Agnes Koury- RCD, Farrah Tyler – WRTC, Clay Groetsch – RCD, Jacob Hoadley – WRTC) learning fish passage barrier assessments of culverts with Oliver Rogers of Trinity River Restoration Program

Annyssa applied for a grant through the Sport Fish Restoration Act (SFRA) Boating Access: Invasive Mussel Grant through the California Department of Fish and Wildlife for decontamination equipment and staff training to conduct Watercraft Inspection and Decontamination (WID) of recreational boats to prevent the spread of aquatic invasive organisms. Due to the limited capacity of our federal partners managing Trinity and Lewiston Lakes, she is working closely with staff at CDFW to pursue funding, training, and additional resources to help prevent the spread of Golden Mussels to waterbodies within Trinity County.

Management: 2 AmeriCorps members: 1 Crew: 1

Upper Trinity River Watershed Coordinator:

Annyssa is seeking new funding opportunities for the implementation of projects including the grant opportunities through the Wildlife Conservation Board, and is meeting collaboratively with WRTC and other RCD Program Staff to discuss future project ideas.

Trinity River Watershed Council:

The June 10th meeting hosted a guest speaker presentation on Updates on the Golden Mussel Response in California with Kristin Hubbard and Dominique Norton of California Department of Fish and Wildlife. There were 19 attendees and it was hosted at the Trinity River Restoration Program office. The next meeting will be held on September 9th, 2025.

USFS Fisheries & Watershed Improvements (BDA): Subcontracting with the Watershed Research and Training Center has been executed to complete the environmental compliance for the Weaverville Community Forest Beaver Dam Analogue project.

USFS STNF Westside Aquatic Support: The 2025 field season is currently underway and staff have deployed 25 of the 31 temperature probes across tributaries to the Trinity River and will be participating in the annual summer snorkel surveys beginning on July 22nd. The dives are being hosted by CDFW staff this season and RCD and WRTC staff are supporting with the transfer of information and logistical support. There have been monthly dive coordination meetings between multiple agencies in preparation.

Figure 3: RCD Staff Agnes Koury deploys a temperature probe in the North Lake Region. 6/13/2025

USFS STNF NEPA Support: RCD staff have been tasked with doing 91 Level 1 road crossing surveys of culverts over 150 miles throughout the Big Ranch footprint to provide road condition, hydrology, and sediment source information for the NEPA compliance of this project. WRTC is producing a Survey123 to aid in the survey data collection.

Weaver Basin Fish Passage Assessments: Additional sites have been identified as unassessed/unknown barriers within the Fish Passage Assessment database (PAD) off of the mainstem Trinity River and are awaiting approval by funders to proceed. The Nor-Rel-Muk Wintu will be participating in 2 educational field trips scheduled for Weaverville Summer Day Camp on July 18th to teach summer camp attendees about fish passage barriers.

Trinity River Clean-Up: Annyssa is coordinating with USFS and BLM to host 2 Trinity River Clean-Up events this year, in July and September. The first event is scheduled for July 19th out of the Old Bridge River Access Location in Lewiston and will involve several boating segments down Douglas City. The fall clean-up is tentatively scheduled for September 7th in preparation for the U.S. Rafting Association and the U.S. Amateur Rafting Coalition's Whitewater Rafting National Championships September 12th- 14th out of Junction City. These cleanup events will include both boating and walking cleanup opportunities, with additional boating support from 6 Rivers Rafting for the fall clean-up. Free event T-shirts will be provided to the first 40 attendees, with sizing available on a first come first serve basis.

GrizzlyCorps Climate

Fellow (Clay Groetsch): This month Clay was heavily involved in field work for the botany and watershed departments, deploying probes Down River, around North Lake, and in the Weaver Basin. Clay also helped with outreach events, such as the Grass Valley Creek Watershed Tour, Science on Tap, a forestry education field trip for Weaverville Elementary, and organized a WCF table at the La Grange Classic. Clay also participated in many trainings, including pollinator surveying training, timber cruising training, fish passage, and culvert training, and timber plot mapping training.

5.3 Roads – Cynthia Tarwater

ROADS – Shasta-Trinity and Six Rivers National Forest (USFS) / BLM / Private

We started the season on Shasta-Trinity National Forest first with work in the South Fork Trinity opening the mainline roads until the failure of the stream crossing at Dark Canyon sent us packing for Six Rivers a tad earlier than expected. We were able to open the roads to most trailheads in the upper South Fork. There are still a lot of problems in the South Fork, lingering August Complex issues, but currently, I have no money for the South Fork of the Trinity River. I am hoping we get more from USFS and Cal Trans on some pending proposals I have in the hopper or the rumors are true and more is coming from the forests.

After the move over to the Ruth area we started work on Mad River Ridge (2S05), where the road was impassable at a few spots. Those were addressed. In addition, we replaced a few rusted-out culverts on the road to the Travis Ranch (3S02). We also repaired an impassable section of the 27N34 from the Three Forks area up to Mad River Ridge.

In mid-June, we will move back to Shasta-Trinity to the Chaparral Mountain area downriver of Big Bar to continue work on the Cal Trans Trinity River project there including work in Cedar Flat and Canadian Creek. These roads are impassable to vehicles due to downed trees, limbs/brush encroaching on the roadway, drops in the road itself, or plugged culverts. We first have to clear these roads just to get the equipment in for work. Some of this area has burned

twice, with the Monument Fire being the most recent. When we're done the public, fire, and resource managers will have access to these 18 or so miles.

Several large agreements are pending with both STNF and SRNF. I have submitted Financial plans for these, but there are some snags and at this time, it's unclear whether I may have to change the Financial plan to eliminate some items listed on the budget (new trucks). Time will tell, we're fine now, just trying to fund some new vehicles in the future.

You are signing a Board Resolution today, this time for another Cal Trans-funded Trinity River project in Grass Valley Creek, this project is to upgrade and replace several culverts at stream crossings on Mainline Road that are in severe disrepair.

Staff Report:

Management: 2 Crew: 1 Contractors: on call

5.4. Grants Report – Annie Barbeau

New Projects:

Project Number: 556

Account Number: 6300500

Funder: National Association of Conservation Districts (NACD)

Award Number: Trinity TA2024

Project Name: NACD ~ Trinity TA 2024

Program Manager: Kayla Meyer

Effective Date: 01/01/2025

Expiration Date: 06/30/2026

Grant Award: \$114,850.00

Overhead: 14.83%

Project Number: 557
Account Number: 1601100
Funder: CA Fire Safe Council (CFSC)
Award Number: 499061
Project Name: TC Fire Safe Council Coordinator 2025
Program Manager: Skylar Fisher
Effective Date: 05/15/2025
Expiration Date: 07/31/2026
Grant Award: \$151,500.00
Overhead: 12.00%

Project Number: 558
Account Number: 5002100
Funder: County of Trinity
Award Number: 25-056
Project Name: TC Title III Firewise Noxious Weeds and Chipping
Program Manager: Skylar Fisher
Effective Date: 05/06/2025
Expiration Date: 09/30/2026
Grant Award: \$72,750.00
Overhead: 14.83%

5.5 **Botany Program – Alyson DeNittis**

- **Personnel:** Program Manager (1), Conservation Technicians (4).
 - We are currently advertising a Botany Conservation Technician II position to assist with Botany projects through September.
- **Training & Education:**
 - Aly is currently studying for the California Native Plant Society (CNPS) Certified Botanist Exam (526 – CARCD CalFire RCD Workforce Development).
 - Aly is developing resources to help conservation technicians and other RCD staff learn common native plant and noxious weed species in Trinity County.

Trinity County
Resource Conservation District

We are Hiring

Botany Conservation Technician II
Applications open until filled

June – September 2025
\$21/hr, 40 hrs per week

- Work on Botany Program projects throughout Trinity County in Northern California.
- Assist with revegetation, noxious weed management, botanical surveys, pollinator surveys, plant nursery management, and more!

Apply Now
tcrd.net/ECB5

Questions?
Contact Alyson DeNittis
adenittis@tcrd.net or
(530) 623-6004 ext. 221

- Aly participated in the Watershed season staff training to teach technicians about collecting data on native and noxious weed species.

- **Native Plant Nursery:**

- Plants continue to be maintained at the nursery.
- Approximately 200 conifer seedlings were donated to the RCD, which were planted into treepots at the nursery. All trees are fully rooted and available for restoration projects for agencies or landowners.

- **Noxious Weed Work:**

- Scotch broom removal in Junction City (521 – USFS RAC; 530 – TC Title III Community Wildfire Protection) was started in March and completed in May. We coordinated with 20 landowners across 22 different properties to remove roadside populations. Additional Title III funds will be used for additional Scotch broom treatments in Junction City in 2026, and we have compiled a waiting list of interested landowners.
- Aly is coordinating with the Trinity County Weed Management Area (WMA) to finalize and sign an MoU.

Donated conifers freshly transplanted at the Native Plant Nursery.

- **Revegetation Projects:**

- Spring maintenance has been completed at all revegetation sites, including repairing infrastructure, weeding, and repairing and installing irrigation systems. Irrigation has started at all sites and is occurring approximately every 2 weeks as daily high temperatures have reached 90 degrees Fahrenheit and above. All sites receive regular maintenance, including noxious weed removal and repairs. Additional updates are as follows:
- **Big French Creek Corner Disposal (537):** We continue to await guidance from Caltrans on how to proceed with the revegetation project. All work is still paused.
- **Hell Gate/Scott Flat (TBD):** An agreement has yet to be executed for this project. A revised budget for \$334,565.22 was submitted for approval in December. Caltrans anticipates that the agreement will be executed in time for a Fall 2025 planting.

- **Future Caltrans Projects:** Caltrans has requested budget proposals for three future revegetation projects, and a budget was submitted for the Tangle Blue CAPM project.

(Top) Karl Reisinger assisting with assessing spring plant survival and oak germination at the Ditch Gulch revegetation site; (Right) native plants flowering at the Swift Creek revegetation site.

- **National Fish and Wildlife Foundation (NFWF) Northern Trinity River Pollinator Habitat (533)**: The Parks Creek restoration site is successful, and being regularly maintained throughout the season.
- Pollinator and botanical surveys have started, which will continue throughout the season. TCRCD staff with Watershed, Forest Health, and GrizzlyCorps have assisted with surveys.
- 98 acres of noxious weed treatments have started with treating Dyer's woad populations at Carville Ponds and other project areas.
- We are coordinating with GIS and Education & Outreach for creating the GIS StoryMap, as well as uploading project data to the RCD Project Tracker.
- **BLM WCF Stewardship (550)**: Work has started on the oak woodland restoration project on the West Weaver Trail, primarily consisting of conifer encroachment and piling. Work on this project will be completed by August 2025.

Dyer's woad in the process of being removed at Carrville Ponds.

5.6 Fuels and Forestry Projects – Shay Callahan (Program Director), Adriana Rodriguez (Program Manager), Eric Bruce (Forester), Gracie Hilinski (Project Coordinator), Jeff McGrew (Fuels Operations Coordinator)

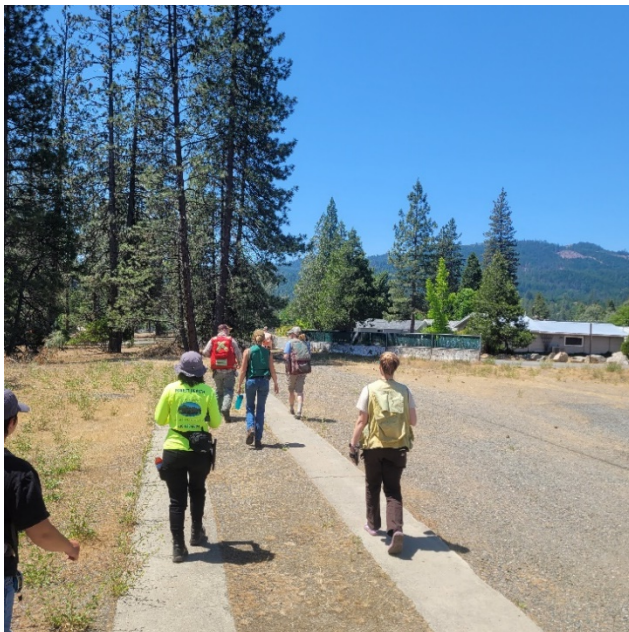

June 2025 Recap

- **Forest Health (FH) Staff News**: We hired 6 more fuels technicians and 3 new forestry technicians in March. The fuels crew hires started March 3rd and the forestry techs started March 10th. We started interviews internally for Fuels Operations Coordinator in March and hired Jeff McGrew in April.
- **Management: 5 Crew: 17 Contractors: 0**

- **Training and Continuing Education:** RT-130 and Basic Training for burning requirements occurred in March. Eight people took the Basic 32 and received their red card. PC Gracie took a USFS Stewardship Agreements Training and Forester Eric took Timber prep and Logging Roads trainings through the USFS. Adriana attended a NNL retreat through the Justice Outdoors program. In April, PD Shay attended a NEPA training with the USFS virtually. PC Gracie also applied for a Star thistle TREX event in Hayfork that will occur in the month of June. Forester Eric Bruce will attend Cone Corps Training in June as well. In addition, the USFS (Dan Dushey) reached out to inquire about hosting an additional training. The TCRCD partnered to host a Two Trails training on Wednesday, June 28th at the TCRCD; this training went through the processes and best practices behind the Two Trails Data Collection software. There were 7 attendees (photo below).

California Coastal Conservancy Lewiston Resilience Phase II: We are still waiting for the BLM to return to Lewiston to wrap up this project.

- **Bureau of Land Management Weaverville Community Forest Stewardship:** The WCF SC just has a meeting on June 4th, 2025 with 13 attendees to review historic project maps, partner updates, and future planning efforts. PM Adriana is looking into monitoring protocols for after-timber sales. PM Adriana and PM Alyson DeNittis are starting to plan a possible planting and Scotch Broom Removal near West Weaver. Fuels reduction and road rework on Democrat Gulch is planned for June with internal staff. The District and BLM are exploring options for the next long-term stewardship agreement.
- **WCF RAC:** PM Adriana and GrizzlyCorp fellow Clay Grotesch coordinated and implemented the following events. In May of 2025; the Woodland Wonders field trip with 40 students in partnership with the USFS (pictured below), Spring Wildflower Hike with 24 attendees made possible with support for the Hoopa Tribe representative Simone Groves.

- **Westside Timber Sale Prep**: Funding in this grant was frozen but is now available for March. We met the USFS to discuss needs on other projects and work will likely not be feasible until April. PM Adriana met with USFS representative Lauren Connor to discuss priority projects for this year and next up are Categorical Stand Exams in Big Ranch. An additional Cruiser Training was hosted with 8 attendees from June 9th – June 11th with USFS representative Dan Dushey.
- **Fee for Service**: None at this time.
- **The McConnell Foundation (TMF)**: Our forestry crews are completing the flagging of units for this project. Currently, the project is on pause as we await approval from FEMA in regards to environmental compliance. The most recent update is that we are waiting for the Office of Management and Congress to approve the funding of Phase 2 for this project. Our funders have chosen a contractor and have begun drafting a contract in preparation for the next steps. Project Manager Adriana Rodriguez met with a GIS representative from VESTRA consultants to set up automatic invoicing systems before implementation. Our Forestry field crew will begin their season on Monday, March 10th, and will work on laying out the remaining units and collecting necessary data before work begins. In addition to unit layout crews will also be finalizing Biomass Removal preferences for eligible landowners.
- **Six Rivers National Forest Road Maintenance Program**: This project is awaiting further implementation funding. The environmental compliance is complete.
- **Middle Trinity Fuels Reduction Phase 1**: RCD crews worked on the State Lands Commission parcel East of Weaverville when the conditions were not conducive to burning in March. This work includes cut and pile treatments, with mastication (WRTC) occurring next year.
- **Ballpark Collaborative Prescribed Burning**: We are working with the Forest Service to develop interpretive signage for this burn site. PC Gracie is working with Tuli Potts of SNC and the USFS to get the correct logo resolution and placement on the sign. Burning will likely not take place this spring so plans will be made for next Fall.
- **CARCD CAL FIRE Workforce Development Grant**: Funding was not used this month. Will likely buy more burning gear and help the project coordinator work towards burn boss credentials.
- **USFS Stewardship Agreement**: The funding for the Weaverville Fuelbreak was signed in December. Initial recon for a partner-led NEPA project focused on access roads at the eastern margin of the Trinity Alps Wilderness has been started by Eric Bruce and Dylan Kirkley. Fieldwork has started for this. Our fuels crews completed work cleaning the KOA after a timber sale under this funding (See Below).

Before KOA

After KOA

- **Northern Trinity Forest Resilience Partnership Phase II:** We met with USFS partners to confirm prescriptions for the RCD crew's work areas this winter and spring. We have identified a starting unit in the Trinity Camps project with Forest Service staff. Two more environmental compliance documents are required for this project but we are waiting on the Bowerman NEPA. This grant will help complete work in the Bowerman Fuel break and be used to purchase 1 new field vehicle in June or July. PC Gracie also led a Trinity Knolls pile burn in April where 5 acres of piles were burned with our in-house crews and the Trinity Center VFD (See Below).

Trinity Knolls Burn on April 15

- **Trinity County Resource Advisory Committee:** We will use some of this funding for spring chipping. We are in the process of closing out one RAC award for Weaverville Community Forest outreach and education, and a new award to continue the same projects has been executed. The new WCF RAC has funding for a GrizzlyCorps fellow, but we are deciding whether the RCD has the need for GrizzlyCorps at this time.
- **Downriver Community Protection CWDG:** PD Shay has been in contact with the grantor to make the necessary edits to the budget and language in the proposal. PD Shay will still send in the necessary edits (changing contractors to the "Other" category in budgets since we selected local agencies instead of putting contracts out to bid) to the application. The grantor instructed Shay to contact her in 21 days since that is the amount of time the national office is supposed to take to process the CWDG edits.

5.7 **Trinity County Fire Safe Council (TCFSC) – Skylar Fisher (Program Manager), Emily Drain (Project Coordinator) Miles Raymond (Education Coordinator), & Emily Acer (GrizzlyCorps Fellow)**

May 2025 Recap

- **Hazard Mitigation Planning:**
 - **Trinity County Evacuation Routes:** The evacuation routes' hazard risk ranking was finalized to compare evacuation route segments based on combined flood, landslide, wildfire, earthquake shaking potential, and cellular coverage risk.
 - **Trinity County Hazard Mitigation Plan (HMP):** Seeking funding to implement the hazard mitigation strategy.

- **Community Wildfire Protection Plan (CWPP)**: The first draft of the CWPP's Risk Reduction Strategy and Wildland Urban Interface sections are complete! We have scheduled a stakeholder meeting to review a first draft of the CWPP on July 7th.
- **Trinity County Office of Education (TCOE) Hazard Mitigation Plan**: The first draft of the hazard risk and vulnerability analyses are complete. We have the second steering committee meeting planned for June 25th.
- **Trinity County Fire Safe Council Meeting**: Another great Trinity County Fire Safe Council meeting occurred on May 22 at the Trinity County RCD Conference Room (and on Zoom). We had 27 attendees. Our next meeting will be June 26.
- **Greater Willow Creek Wildfire Resilience Project**: Salyer implementation expected to begin at the end of June or start of July.
- **2022 Six Rivers National Forest Post-Fire Recovery**: We completed 13 site assessments the week of May 19. We are still seeking additional landowners interested in participating in the program to offer free site assessments and fuel reduction for those impacted by the 2022 fires in Willow Creek and Salyer.
- **State Coastal Conservancy (SCC) Wildfire Resilience**: Planning and environmental compliance continues for the Hobel Dump Risk Reduction Project.
- **North Coast Resource Partnership (NCRP) Technical Assistance Project**: We are supporting NCRP by administering a technical assistance agreement to support project development of wildfire resilience projects by RCDs in the North Coast region.
- **Trinity County Firewise Fair**: For this year's Wildfire Preparedness Day, the Trinity County Fire Safe Council, in partnership with the Watershed Research and Training Center and the Hayfork Volunteer Fire Department (VFD), hosted the second annual Trinity County Firewise Fair on Saturday, May 3 at the Hayfork Park. The fair, which also served as a fundraiser for the Hayfork VFD, raised \$1,650 to support local efforts. We estimate roughly 300 attendees joined in on the fun at the park.

The Hayfork VFD served 400 tacos, funded by donations, and sold 170 tickets for a drawing with prizes including a Stihl Chainsaw donated by Trinity River Lumber Mill Co. and a customizable plasma-cut metal sign from Hayfork High FFA.

The Touch-a-Truck event was a highlight, allowing kids and adults to explore vehicles like fire engines, heavy equipment, and police cars. Equipment was provided by Angelo Cattaneo Trucking, with displays from CAL FIRE, Hyampom VFD, Kettenpom-Zenia VFD, Trinity County Sheriff's Office, and USFS Six Rivers. This interactive experience offered a closer look at the tools protecting our community, fostering appreciation for local emergency services.

Vendors, including Trinity County Public Health, Trinity County Resource Conservation District, Watershed Research and Training Center, Indian Valley Stewardship Camp, Hyampom Prescribed Burn Association, CAL FIRE, Kettenpom-Zenia VFD, Trinity County Environmental Health, Natural Resources Conservation Service, Element Medical Inc., Northern Valley Catholic Social Service, Human Response Network, USFS Shasta-Trinity, and Kephart Custom Cuts Tree Service provided the event with a variety of local information and support, enhancing community ties and preparedness. Other vendors include Hayfork Fair Grounds, Nature's Nexus, Sunshine Gardens, Jim Lacitignola, and the Trinity Skatepark Project. The Good Times Band and Top of the Grade Fire and Flow delivered family-friendly entertainment, joined by special appearances from Smokey Bear and Captain Cal.

Figure 3 Both CALFIRE's Captain Cal and the US Forest Service's Smokey Bear made an appearance

- **May Events:** The Trinity County Fire Safe Council engaged residents at the following events in May:
 - Salyer Store tabling (May 1)

Figure 4 Miles and Emily D. performing outreach in Salyer

- North Lake Firewise Day (May 10): In the morning, Emily A. and Miles tabled at the Trinity Center Firewise Fair. In the evening, Miles gave a presentation with Carol Fall, Trinity Center Volunteer Fire Department Assistant Chief, on home hardening and defensible space at Trailhead Pizza.

Figure 5 Emily A. and Miles at the Trinity Center Firewise Fair

- Big Flat Jamboree tabling (May 17)
- Coffee Creek Neighborhood Ambassador Event (May 20): The Fire Safe Council supported Neighborhood Ambassador Janelle Johnson in organizing a community chipping prep event to support those who would like TCRCD chipping services, but do not have the ability to prepare piles.

Figure 6 Group photo at Janelle's event.

- **Funding Update:** In May 2025, the Fire Safe Council entered into two new agreements. One for Title III funding to go towards Firewise education and outreach, community chipping services, and noxious weeds treatment. The second is for our third round of Wildfire County Coordinator program funding to support Fire Safe Council education, outreach, and planning.

- **Trinity County RCD hits the lanes!** The Fire Safe Council organized for the Trinity County RCD to have a team at a May charity bowl event at the Trinity Lanes. The team voted for their entrance fee and a portion of the proceeds from a silent auction at the event to go towards the Friends of the Library. Thank you to Emily A., Karl, Shay, and Kelly for representing the RCD at the event!

5.8 Young Family Ranch

- Botany is continuing to maintain the Young Family Ranch grounds, including coordinating gardeners at the Community Garden.
- A CSP application for the YFR was submitted to the NRCS, and the application is currently being processed.

June 24, 2025

Projects Reports

- Botany attended the June Board Meeting, and provided a report of stewardship activities for the YFR Board.
- Aly is working with the Board to propose a fall volunteer event at the native plant garden at the Young Family Ranch.

5.9 Weaverville Summer Day Camp: Planning is underway, and marketing has been launched for the camp. Registration is now open, with an Early Bird Discount available through May 31st. This year, we're partnering with the Trinity County Office of Education as our fiscal sponsor. They are and support camp operations, as well as a 10-passenger van to shuttle campers on field trips.

5.10 Geographic Information Systems (GIS) Report – Crystal Hodges

- The Evacuation Hazards and Routes were improved upon by Erik Flickwir since my last board report. The project now includes hazard ratings for earthquakes, floods, landslides, cellular coverage, and fire. The whole project has been turned into the county! Skylar has been a great manager to work for throughout this project. Her clarity, eye for detail, and logical explanations made this project a joy.
- The Weaver Basin Trail System Bandana map was printed and finished in time for the LaGrange Classic Mountain Bike Race that took place on June 7, 2025. This product is very exciting because many people from outside Trinity County will see it and this could potentially

drive up tourism. People appreciate unique and local items, and this is a locally designed clothing item that also serves as a navigation guide. We've become dependent on electronic/internet maps, but physical maps never run out of battery or need service. In a life-threatening situation, a lost hiker may find the bandana to come in handy for more than just a wet cloth to keep cool.

- The planning department at the County was facing some software performance issues this month. Angel, the assistant planner (currently the only planner), was experiencing program crashes in ArcPro when she tried to load a map. The solution was to uninstall the program, de-authorize her license, re-install the program, and re-authorize her license. The program performed well for a week, then the problem returned. I returned to help with an update for the program, but the problem continued. After consulting with the IT department a decision was made to switch Angel to another computer. Hers was 9 years old and barely able to run the programs. I switched her from a single-user license to a Creator-type license, so that she can use ArcPro on any computer that has it installed. It's tied to her login credentials rather than the PC.

5.11 Education and Outreach – Kayla Meyer & Duncan McIntosh

Management: 1 Coordinators: 3

- **Funding Proposals:** None at this time.
- **Bureau of Reclamation TRRP Outreach & Education:**
- **Grass Valley Creek Tour:** Planning for the tour is complete, and marketing materials are now being distributed. This public tour will highlight past, present, and future efforts to rehabilitate the ecological disaster that caused historic levels of sediment to enter the Trinity River.
- **Science on Tap:** Last month's Science on Tap featured Chad Martel, Habitat

the season. Up next, Eli Asarian, aquatic ecologist and hydrologist, will present 'Northwestern California Beavers in Motion: Past, Present, and Future.' This will be the final Science on Tap event of the season.

Division Biologist with Hoopa Tribal Fisheries, who presented 'Redd to Blue: The Perilous Journey of Juvenile Chinook Salmon.' It was well attended and marked the first outdoor Science on Tap event of

- **Day at the Wetlands:** Hosted the annual Day at the Wetlands event, which this year brought together 4th graders from five different Trinity County schools for a day of hands-on learning focused on riparian ecology. Along with District staff, partners Restoration Program (TRRP), the Natural Resources Conservation Service (NRCS), and the Wintu Educational Council led engaging activities throughout the day. In total, approximately 49 students participated.

Trinity County Resource Conservation District

**RESOLUTION 2025-002
BOARD OF DIRECTORS
TRINITY COUNTY RESOURCE CONSERVATION DISTRICT
JUNE 24, 2025**

**RESOLUTION OF THE BOARD OF DIRECTORS OF THE TRINITY COUNTY
RESOURCE CONSERVATION DISTRICT AUTHORIZING ENTERING INTO A
COOPERATIVE AGREEMENT WITH CALTRANS FOR THE TRINITY RIVER (Grass
Valley Creek) TMDL SEDIMENT REDUCTION PROJECT: 2025-2028**

Whereas, the Trinity County Resource Conservation District (TCRCD) plans to implement sediment reduction projects on specified BLM roads within the Grass Valley Creek watershed; and

Whereas, Caltrans has Total Maximum Daily Load (TMDL) sediment reduction goals mandated by the North Coast Regional Water Quality Control Board to protect water quality in the Trinity River watershed; and

Whereas, Caltrans has agreed to reimburse the Trinity County Resource Conservation District in an amount not to exceed \$525,000 for the completion of the Trinity River (Grass Valley Creek) TMDL Sediment Reduction Project (PROJECT) to comply with the TMDL goals specified by the North Coast Regional Water Quality Control Board, and

Whereas, in order to be reimbursed, TCRCD is required to enter into a “Cooperative Implementation Agreement” with Caltrans to provide design and construction services to complete the PROJECT as written.

Now, therefore, be it resolved and ordered, that the Board of Directors of the Trinity County Resource Conservation District does hereby authorize the Executive Director, or designee, to execute a Cooperative Implementation Agreement with Caltrans to receive reimbursement of funds to complete the Trinity River (Grass Valley Creek) TMDL Sediment Reduction Project: 2025-2028.

APPROVED AND ADOPTED the 24TH day of June, 2025.

We, the undersigned, hereby certify that the foregoing Resolution No. 2025-002 was adopted by the Board of Directors of the Trinity County Resource Conservation District by the following roll call vote:

Ayes:

Noes:

Absent:

Abstain:

Attest:
